Will Visit Beaver Fair

Quite a number of the Liberal business men figure on going to Beaver today to take in the Beaver County Fair. The folks down there did the right thing in coming here during the Southwest Fair, and it is thought the proper thing to show a spirit of reciprocity. The Liberal band and ball team is going, and the ball players hope to win back the purse the Beaver boys won here last month. The Beaver county folks have made special efforts to provide amusements and accommodations for all the visitors and a big crowd is expected to be in attendance. Every business man in town who can possibly get away today should go and help swell the representation from Liberal.

A fussy Atchison mother, of the high-brow variety, is complaining about the baleful influences at the Atchison schools, according to the Great Bend Tribune. She says she is sending her daughter to school to receive an education and that instead she is having her head filled with a lot of rubbish and nonsense. She is particularly mad today because her little girl last night brought home a little poem which was told to her by another pupil. The poem follows: "A grasshopper is mostly legs; connected to a shell; it cannot run so very fast, but it can jump like hell."

Baptist Church

Lasting results from the meetings conducted by Evangelist Head of Atlanta, Ga.

Pueblo, Colo., June 1.—I cannot say too much for my friend, Evangelist Wilburn L. Head. He is a great preacher of the old time gospel. He is faithful to the church and at all times the pastor's friend. His two weeks' meeting with us three years ago was glorious in every way. Fifty nine were added to the church, some of the best workers in our church united with us during the Head meetings. His converts stick. Head does not have the dollar mark on him anywhere. I never had an evangelist that did me more good. Head is the evangelist the church needs.—F. Carl Truex, Pastor Meas Baptist Church.

A. W. IHDE, Pastor.

T. W. Hubbard left Wednesday for Dallas, Texas, where he will attend the Texas state fair. Mr. Hubbard took some fancy chickens belonging to himself and W. E. Farmer which he will exhibit at the fair. He is one of the officials of the poultry department.

Unfortunately, as Miss Anna Clarkson points out, the golden rule and the golden calf travel in different directions, and both cannot be followed at the same time.

Young People Married

Edward H. Schultze, a young farmer of Cedar City and Miss Gladys Mae Colby, of Benton City, Washington, were married at 3 o'clock Sunday afternoon in Fulton, as the culmination of an acquaintance formed while Mr. Schultze was in the harvest fields of Liberal, Kansas, and at which time the Colby family lived in Liberal. The wedding took place at the home of the bridegroom's parents, Mr. and Mrs. W. F. Schultze, on 200 East Second street, the Rev. J. A. Taylor, pastor of the First Baptist Church officiating.

The bride was becomingly dressed in a robe of ivory satin, and carried roses. The decorations were roses, white dahlias, and smilax. Daniel Hader of Higginville, Mo., acted as best man. Miss Hulda Schultze, sis- of groom, was maid of honor. Refreshments were served to the wedding guests at the conclusion of the ceremony, those in attendance being relatives and a few intimate friends.

The bride reached Fulton early last week with her mother, Mrs. Ida Mae Colby, and two other children, having been met at Kansas City by Mr. Schultze. Mrs. Colby and children accompanied Mr. and Mrs. Schultze to their farm in Cedar City Monday morning, and will make her home with them until she concludes negotiations for the purchase of a small farm in that section. Mr. Schultze has been in Cedar City for some time, owning a farm that he bought from his father. He is an industrious, ambitious young man and his friends in Fulton wish for him success and happiness in his married life.—Fulton (Mo.) Sunset.

Read the Ads.

While a newspaper man is always on the alert for more advertising to fill his columns, there is another side of the question just as important—that of reading the ads. the paper contains. Many people fall into the habit of reading only the news in a paper, not giving the advertisements even the "once over". This works a hardship on three people—the advertiser, the newspaper man, and the reader. Business men demand results from their ads., which is no more than proper, and which is desired by the publisher as keenly as the advertiser; but no paper with ever so large a circulation can get results if its readers do not study the advertising columns. The Democrat carries a lot of bargains each week, and if you don't believe it we cordially invite you to scan its ads, every issue for a month or two. If you do this we guarantee that before the month is up you will find something in some of them that you need and will buy the next time you do any shopping. One reason that the mail order houses do such an immense business is because the people either do not know of the bargains at home or are too indifferent to examine the home merchants' advertisements. Look over each ad. every week and you will be surprised at the articles you find that you really need and that can be obtained at home at the same price or less than you can order them. We are just as anxious for our advertisers to get results from the money spent with us as they are, and if our readers will comply with these suggestions it will be mutually profitable all the way round.

Kansas and Dry Farming

The fact that Kansas won the prize for its exhibit at the International Dry Farming congress places the state first in the list of states that have engaged in modern dry farming operations.

The exhibit, most of it coming from the western part of the state, where dry farming is practicable, is definitely representative of what Kansas has accomplished along this line. Not only this, but it is an index of what Kansas may do in the future. The full possibilities of dry farming are as yet unrealized. Probably new drought-resisting crops and certainly new drought-resisting strains will be obtained, new methods of agriculture under semi-arid conditions will be developed.

The further development of dry farming in Kansas will be of benefit not only to this state, but to the whole nation. Not less than 45 per cent of the land in the United States requires the application of dry farming methods of agriculture is to be successfully carried out on it. There is this amount of land which receives low rainfall and is at the same time not capable of being irri-

Gives You Something to Talk About.

Special Prices on Staples in the Dry Goods Department

A Big Saving For You

RECENTLY we were discussing among ourselves just what increase it would make in the amount of our GROSS SALES if we were to sell our staples in dry-goods at COST, or even less than ACTUAL COST when we take into consideration our per cent of doing business. Well, we are so curious to find out that we are going to give the proposition a good try-out. This is a bonifide proposition by one of the largest and most reliable concerns in this Great Southwestern country, and we stand ready to back up any statement we make. Goods sold absolutely as advertised, and we challenge anyone to dispute this statement. Our prices may change from time to time; some goods may be withdrawn from sale price, and others may be added. Bring this price list with you if you like and see that we sell as we advertise.

THE "PRUDENT MAN" IS NEVER OUT OF A JOB AND WITHOUT MONEY IN THE BANK

Regrets won't bring back the money you have extravagantly spent. One sure friend to a man in trouble is MONEY in the bank. But the man who banks his money is the man who gains the confidence of his employer and holds his job. Money in the bank also means CREDIT and CONFIDENCE. No man can afford not to have the confidence of his fellow men.

Make OUR bank YOUR bank.

gated.

As population increases, it will be necessary to make use of all this land unless the undesirable system of extreme intensive farming is to be employed on the more fruitful soil. Much of the dry land of the country is now being used, but it may be used more effectively. Kansas is using its opportunity to develop the most effective methods.—Kansas Industrialist.

Read The Democrat every week.

Attorney G. W. Sawyer transacted legal business in Guyton Tuesday.

Ralph Colvin and Chas. Hymon made a business trip to Elkhart the last of the week.

County Attorney Commons returned Tuesday from a business trip to Emporia.

H. W. Love and son, Clifford, of Beaver Co. left Sunday for Grand Junction, Colorado, where Mr. Love will spend a few weeks with his mother.

See Dr. Higginbotham for bargain in house and furniture.

Mrs. Minnie S. Grinstead will speak at the Baptist church next Sunday morning and evening.
